THE TAFT SET of SIX EVERBLOOMING ROSES

COSTING \$1.50, FOR \$1.25. THE SET OF SIX IN 2-YEARS FOR \$2.75.

MADAME BUTTERFLY—(New) Is Hill's glorified sport of Ophelia. Seen and admired by thousands. All the color tones of Ophelia are intensified, making it a harmony of bright pink, apricot and gold. Ophelia ranks at the top in popularity and Madame Butterfly will surpass it. It averages more petals to the bloom; it produces more bloom to the plant because it makes more branches, every one carrying a bud. The tight buds are a lovely shade of Indian oak, yellow at the base; they are unique for corsages and for low table decorations; the opening flowers are perfect in form and texture, clear and brilliant in color and of delicious fragrance. **40 cents each.**

RED RADIANCE (H. T.)—All who know that grand Rose Radiance will welcome this red form of that great favorite. Radiance is a Rose that does well everywhere, a fine grower and free bloomer, and no prettier pink Rose grown. Red Radiance is its exact counterpart except that the color is a rich deep red. **25 cents each.**

WHITE MAMAN COCHET (No Finer Rose Than This)—This Rose attracted our attention from the very first time we ever saw it in flower. It is of the largest size, and as you will notice, the flower is built up, or rounded, and very double. The color is a pure snow-white. Sometimes outdoors it is tinged pink, which only adds to its great beauty. No Rose surpasses it in vigorous growth and in the immense size of its buds and flowers—indeed, nothing in the Tea family approaches it in size. Deliciously fragrant. **25 cents each.**

PRESIDENT TAFT—It is without question the most remarkable of all pink Roses. It has a shining, intense, deep pink color possessed by no other Rose. **20 cents each.**

ALEXANDER HILL GRAY—Its color is a solid deep yellow throughout. **20 cents each.**

RADIANCE—A brilliant rosy-carmine, displaying beautiful rich and opaline-pink tints in the open flower. **20 cents each.**

THE WASHINGTON SET OF FIVE DAHLIAS

COSTING \$1.25, FOR ONLY \$1.00.

SYLVIA (or Dolly)—Flowers four to six inches in diameter; of fine form and full to the center, which is white, shaded to soft pink on the outer petals. In freedom of bloom next to the Countess of Lonsdale. A magnificent Dahlia. **Each, 25 cents.**

FRINGED CENTURY—Intense rosy-carmine with lighter edges, fringed or cleft petals; blooms all summer; fine for cutting. **Each, 25 cents.**

PRINCE OF YELLOWS—One of the best canary-yellows for cutting. **Each, 25 cents.**

MATCHLESS—Deep crimson, of large size; an early and late bloomer. This we consider one of the best ten Dahlias. Very showy in the garden. **Each, 25 cents.**

FLORADORA—Deep dark, rich wine-crimson, splendid shaped flowers on long, upright wiry stems. **Each, 25 cents.**

THE McKINLEY SET OF FOUR "MUMS"

COSTING 80c., SENT FOR 65c.

MARIGOLD—As a golden-yellow is unsurpassed both as to size and color. A monster flower. **Each, 20 cents.**

HARVARD—Japanese reflexed, very dark crimson; extra. **Each, 20 cents.**

OCONTO—Large white blooms; on strong stems. **Each, 20 cents.**

UNAKA—A fine incurved bloom of a pleasing shade of pink. **Each, 20 cents.**

THE ROOSEVELT SET OF EIGHT GLADIOLI

COSTING 76c, SENT FOR 50c.

EMPRESS OF INDIA (Velthuys)—The darkest of all. Very dark rich mahogany-red. One to delight, and one of the very best. Certificate of Merit from Haarlem and London in 1912. **Each, 7c; dozen, 75c; hundred, \$5.00.**

MRS. FRANCES KING (Groff)—Could we grow but a few varieties, Mrs. Frances King would be one of them. A most beautiful "Besnard shade" of flame-pink. Flowers of giant size on a spike growing four feet high with from eighteen to twenty flowers. Six to eight open at one time. Beautiful under artificial light. A magnificent variety. **Each, 5c; dozen, 50c; hundred, \$3.50.**

ROUGE TORCH—Large creamy-white flower with scarlet feather in lower petals, much like a rouge, torchlike tongue, making a striking contrast. **Each, 10c; dozen, \$1.00.**

PANAMA (Banning)—The companion to America which has become very popular. A perfect Her-

mosa-pink in color with wide open wax-like flowers; one of the best of the clear pinks; many awards. **Each, 7c; dozen, 75c; hundred, \$5.00.**

PEACE (Groff)—Giant white flowers with lilac feathering in throat of two of the petals; flowers correctly placed on a tall, graceful spike. An extra fine variety. **Each, 7c; dozen, 75c; hundred, \$5.00.**

WAR (Groff)—Deep blood-red, shaded crimson-black; very tall and conspicuous. The best Gladiolus of this beautiful shade of red. **Try it. Each, 15c; dozen, \$1.50; hundred, \$10.00.**

WILBRINCK—Lovely flesh-pink with creamy blotch on lower petals; new and very beautiful. Said to be the earliest of all Gladioli. **Each, 10c; dozen, \$1.00; hundred, \$7.00.**

YELLOW HAMMER—Pure yellow; extra strong grower. Award of Merit, 1913. **Each, 15c; dozen, \$1.50; hundred, \$12.00.**

WHAT OTHERS SAY

Port of Spain, Trinidad, B. W. I.

Gentlemen:—

I take this opportunity of informing you that the Gladioli received from you on my first order have grown beautifully and are flowering magnificently. They are the admiration of all my friends. I know my 71 varieties that I am now ordering will do as well. They sure are a pleasure to raise.

L. A.

Santo Domingo.

Gentlemen:—Kindly take special pains to have Roses packed well for long trip to Santo Domingo. The last shipment came through in good condition; only lost one out of seventeen plants. I sure want to congratulate you and I hope I will be as pleased with them as I was with first lot.

E. R. M.

Utica, Ohio.

Good & Reese Co., Springfield, Ohio.

Gentlemen:—The plants came through all right and they are certainly very fine plants. I called in a flower-loving neighbor to see them and she thought them the finest Roses she had ever seen sent out. Many thanks.

Sincerely yours,

MRS. G. B.

St. Louis, Mo.

Dear Sirs:—The Peony roots which I received from you Sept. 30, 1919, were by far the finest and most promising looking roots I have ever obtained from any place. They have developed this spring better and bloomed more liberally than they had promised. Liberal as you seem to be in telling of these Peonies you are in no case saying enough of Therese. This Peony developed only two stalks but were exceptionally fine and were wonderful when in bloom; immense flower of central bud and four likewise very large flowers of the lateral buds on stems, almost a foot long.

H. S.

Erlanger, Ky.

The Good & Reese Co., Springfield, Ohio.

Gentlemen:—I take this opportunity of thanking you for the prompt filling of my small order for Roses. The order was sent on April 28th, and I received the Rose bushes on May 4th. I call that real service, and if I have success this year and want to put out any more next year, you can count on my order.

Also want to thank you for the two extras you sent. All are doing nicely.

Very truly yours,

M. Y. T.

Belgrade, Maine.

The Good & Reese Co., Springfield, Ohio.

Gentlemen:—Enclosed please find P. O. money order for \$2.75, balance for roots, which came in fine shape.

They are large and thrifty, much better than I expected, the best I ever saw from any dealer. I have planted them and cared for them the very best. Will let you know how they blossom. Will try to get customers for you around here.

Many thanks for such good Peony roots.

Very truly,

P. S.

THE CREAM OF THE NEW ROSES

We here offer what is good in the new Tea and Hybrid Tea Roses. To have what is good you must try these Roses. They are the best that England, France, Ireland, Italy, Holland and America can produce.

Price, 25 Cents Each, Except Where Noted. Two-year Plants
60 Cents Except Where Noted.

CHARLES K. DOUGLAS (H. T.)—Bud large, long-pointed; flower large, full, double, sweet fragrance; color, intense flaming scarlet, flushed, bright velvety crimson. Foliage, dark green; disease resistant, vigorous, upright grower, produces an abundance of blooms from June to October. 50 cents each. No two-year to offer.

COLUMBIA (H. T.)—This is a new American Rose, grown by the veteran rosarian E. G. Hill. It is a very vigorous grower of a true pink shade, deepening as it opens to glowing pink. A peculiarity of this variety is that the shades all become more intense until the full maturity of the open flower is reached, and this color is enduring.

COLONEL OSWALD FITZGERALD (H. T.)—A brilliant Rose. Its blood-red velvety crimson beautifully finished blooms are produced in great profusion on erect stems; branching pure tea perfume. We have no hesitation whatsoever in describing this variety as excellent. Named in remembrance of Colonel Oswald Fitzgerald—a lover of roses—who perished with his chief, Lord Kitchener. 50 cents each. No two-year to offer.

CORNELIA—Ophelia X. Mrs. Aaron Ward. A splendid cross between these two well known Roses. Flowers are medium to large size and very double. The bud is a beautiful salmon-pink. In the half expanded and full flowers the outer petals are light flesh, with the center a bright Mal-maison pink; base of petals bright orange. A strong, vigorous grower with good stem and foliage.

CRIMSON QUEEN (H. T.)—A very strong, upright grower, flower large and full. Color a rich bright velvety crimson. A grand garden Rose, as it is always in bloom.

CRUSADER—(New). A big, strong growing variety, robust and rugged in every characteristic. The growth is heavy and the flower stem strong and heavy. It is free flowering and the blooms are big and double and in color a rich velvety crimson. A free flowering red Rose that is a wonder. 40 cents. No two-year to offer.

EDEL (H. T.)—Type, Florence Forrester; bud, very large; flower, very large, double, well built, stately, opens well in all weather; sweet fragrance. Color, white, with the faintest ivory shading toward base, passing to pure white. Foliage, bold and distinct; very vigorous grower; free bloomer. 50 cents each. No two-year to offer.

FLORENCE FORRESTER (H. T.)—Clear snow-white with a lemon tinge; as the flowers age they become a pure white; the blooms are even larger than Paul Neyron. Its habit is absolutely perfect, and the freedom with which it flowers is marvelous. We consider this Rose the grandest of all whites for bedding. For size and substance has no equal among Hybrid Teas. Is very sweetly perfumed. Gold medal, National Rose Society.

FRANCIS SCOTT KEY (H. T.)—It is very fitting that such a fine new Rose should be honored with the name of the author of the "Star Spangled Banner," and also that it should hail from Baltimore, one of whose forts was being assailed when the inspiration came to the author to write our national anthem. The flowers are from large to very large, with sixty or more petals opening to a high center. The color is a magnificent deep red rose. Wherever it has been staged this Rose has swept all competitors from the boards and secured every prize it has entered for. Grand for the garden.

THE CREAM OF THE NEW ROSES—Continued

Frank W. Dunlop.

FRANK W. DUNLOP—(New.) Did you see it at the International Flower Show at New York the past spring? Its record at the exhibition, winning silver medal for the best new pink Rose, gold sweepstakes medal for the best seedling in the show. Frank W. Dunlop was the finest flower in the exhibition. Claimed to be better than Mrs. Charles Russell. 40 cents. Two-year, \$1.00 each.

GLADYS HOLLAND (H. T.)—Of magnificent form and size. Color buff, shaded orange-yellow, outside of petals pearly-peach. Very free flowering. Awarded a gold medal, National Rose Society of England.

GLOIRE DES BELGES (H. T.)—Growth vigorous and free, flowering continuously until late in the season. Buds oval, long and of elegant form with vivid colors of carmine and cochineal. Fine for massing and a fine cut flower.

GOLDEN OPHELIA—This is a sturdy, stiff-stemmed grower, with beautiful foliage, quite closely set, and glossy. The flower is of medium size from a beautifully formed bud of bright golden-yellow. Profuse bloomer. 50 cents each. Two-year, \$1.00 each.

GOLDEN SPRAY (H. T.)—Unique in habit and growth, it sending up long arching shoots which form great loose elegant sprays, every bud of which opens up in succession. The buds are very long, of deep Marechal Niel yellow, opening to almost single blooms of clear lemon-yellow. Awarded gold medal, National Rose Society of England.

GORGEOUS—Flowers large and full, exquisitely formed and produced in endless profusion. Deep orange-yellow and heavily veined with reddish-copper, the most charming and gorgeous coloring which has yet been introduced. The most striking Rose in existence.

HADLEY (H. T.)—In color it is a deep velvety-crimson, retaining its brilliancy at all seasons of the year. The variety is double and buds are well formed. The fragrance is excelled only by American Beauty. It is a strong, rapid grower, and the flowers are borne on long, stiff stems. It has proven itself under thorough trial to be an all-the-year-round forcing variety.

HOOSIER BEAUTY (H. T.)—We use description of E. G. Hill Co.: "If you need a more profitable red Rose than the one you are growing, 'Hoosier Beauty' is your variety. It is as fragrant as Richmond; has more petals, a stiffer stem, a texture like velvet. In color, glowing crimson-scarlet, with darker shadings. The bud is of good length, ships well in the close-cut state, and opens into a magnificent bloom, quite dazzling in velvety brilliance. As soon as thoroughly established in the soil sends out long, stiff growths with a bud on every shoot."

HENRIETTE (H. T.)—One of the finest in existence for bedding, garden and cut-flower purposes; blooms erect on long stems; buds long and pointed. Color fiery orange-crimson, changing to soft coral-salmon. Very hardy. Free in habit.

KILLARNEY BRILLIANT (H. T.)—The introducers are to be congratulated 16 years after the advent of Killarney in giving us this distinct novelty, which is undoubtedly the best of the Killarney type. Killarney Brilliant has the same habit of growth and the same freedom of bloom as its parent, while the flower is more double. The color is a very brilliant pink and varies like Killarney. In the garden in bright weather is clear pink, and in dull weather almost crimson. Extra.

LADY PLYMOUTH (T.)—The color is a pearly, delicate but deep ivory-cream, faintly flushed, giving it a most piquant finish that is difficult to describe. Awarded gold medal National Rose Society of England, and silver medal at Crystal Palace Show, London.

LADY ROBERTS (T.)—The color is a rich golden-yellow, very free bloomer and a grand garden Rose.

LEGION (H. T.)—Bud, well shaped, globular; flower, large full, lasting cerise-red throughout, fragrant; foliage, large, glossy reddish green. Originally named American Legion, but name changed because objected to by association of that name. 50 cents each. No two-year to offer.

LOS ANGELES (H. T.)—Los Angeles is, by all odds, one of the finest Roses ever introduced. The growth is very vigorous, and produces a continuous succession of long-stemmed flowers of a luminous flame-pink toned with coral and shaded with translucent gold at the base of the petals. In richness of fragrance it equals in intensity the finest Marechal Niel. The buds are long and pointed and expand into a flower of mammoth proportions, while the beauty of form and ever increasing wealth of color is maintained from the incipient bud until the last petal drops. 40 cents each. Two-year, \$1.00 each.

MADAME MARCEL DELANNEY (H. T.)—A surprising beautiful novelty raised by the introducers of the popular Rose Jonkheer J. L. Mock, and honored with the award of the Gold Medal of the Bagatelle Gardens at Paris, 1915. It is distinct and peculiar in color, a pale soft pink or rose shaded with hydrangea-pink. The flowers are very large, full and fragrant, perfect in form, and borne on rigid stems. The growth is vigorous and very floriferous.

MADAME COLLETE MARTINET (H. T.)—A vigorous grower of coppery-orange color. The color is very deep and clear, and holds well, which can be said of few yellow sorts. It is a nice grower, free in bloom, and those wanting a yellow different from "Ward" or "Sunburst" should try this one.

THE CREAM OF THE NEW ROSES—Continued

Madame Butterfly.

MADAME BUTTERFLY—(New.) Is Hill's glorified sport of Ophelia. Seen and admired by thousands. All the color tones of Ophelia are intensified, making it a harmony of bright pink, apricot and gold. Ophelia ranks at the top in popularity and Madame Butterfly will surpass it. It averages more petals to the bloom; it produces more bloom to the plant because it makes more branches, every one carrying a bud. The tight buds are a lovely shade of Indian oak, yellow at the base; they are unique for corsages and for low table decorations; the opening flowers are perfect in form and texture, clear and brilliant in color and of delicious fragrance. 40 cents. Two-year, \$1.00 each.

MISS WILMOT (H. T.)—The most refined and charming Rose ever raised. There is an appealing sweetness about this most distinct variety that will please lovers of Roses all the world over. The color is practically a uniform soft sulphury-cream, with the faintest flush towards the edges. In shape and form this Rose is a model of perfection, every flower comes perfect and produced with a freedom that is marvelous. A wonderful garden Rose. Gold medal, N. R. S. 40 cents. No two-year to offer.

MR. P. L. BAUDET (H. T.)—Color carmine-rose flecked with salmon-yellow, center darker. Flowers large and full, vigorous in growth, continuous in bloom. A unique two-tone Rose.

MRS. BRYCE ALLAN (H. T.)—Strong Moss-rose perfume. Color carmine-rose. Flowers globular in form, very erect stems, deep green foliage.

MRS. CHARLES BELL (Pierson, 1918)—This new Rose will appeal to those who grow Roses out of doors. It may be described as a shell-pink Radiance, and is a sport of that well known Rose. It has no characteristics which make it distinct from Radiance except that it is shell-pink. Mrs. Chas. Bell Red Radiance and Radiance offer a range of color that will be welcome. No finer garden Roses for America than these three.

MRS. CHARLES RUSSELL (H. T.)—This wonderful new American Rose has taken the country by storm. No other forcing Rose except "American Beauty" can compete with it when it comes to counting points. Stems three feet long stiff and surmounted by grand rosy-pink blooms of the largest size and build. 40c. No two-year to offer.

MRS. CAMPBELL HALL (Tea)—Delicate creamy-buff, edged or suffused rosy-carmine. The center of the bloom is warm cerise coral-fawn. Very deliciously fragrant. Awarded gold medal, N. R. S.

MRS. CURNOCK SAWDAY (H. T.)—A vigorous grower, with bright green foliage. The well shaped blooms carried erect on long stems, are sweetly scented. The color is a pleasing shade of pale blush-pink, a good garden rose in commerce. 50 cents each. No two-year to offer.

MRS. HENRY WINNETT (H. T.)—This is a seedling raised by John H. Dunlap, of Canada, and has the distinction of being the first seedling Rose of Canadian origin that has been offered in commerce. In color it is a bright shade of crimson, not so dark as Hadley, and not so light as Richmond. It is a color that pleases the retail storeman and his patrons. The finest of all the red or crimson varieties. The buds are long and well formed. A superb red Rose. 40 cents. No two-year to offer.

MRS. HENRY MORSE (H. T.)—Bud very large, long pointed, flower very large, high center, double, fragrant, color flesh-cream ground with a sheen of bright rose, deeply impregnated and washed vermillion with clear vermillion veinings on petals; very vigorous grower, bearing an abundance of bloom. 50 cents each. No two-year to offer.

MRS. JOHN COOK—White, suffused with delicate pink, describes the color of this strong-growing, big-flowered daughter of Ophelia. The color varies with the season, the flush of pink being more pronounced during cool weather, while the Rose is almost white during the long days of bright sunshine. In bud it is nicely formed, the mature flower opening cup-shaped but expanding fully to a large and finely-formed bloom. It is bigger and better in summer than White Killarney and, with its delicate pink in dark weather is a very charming color. 50c. No two-year to offer.

MRS. MACKELLAR (H. T.)—The glorious blooms make this an imposing Rose. A deep citron or delicate pure canary color. As the large blooms gracefully expand the guard petals charmingly reflex and become pearly primrose-white of great decorative beauty. Award of merit (unanimous), R. H. S., London.

Ophelia.

(See description on page 6.)

THE CREAM OF THE NEW ROSES—Concluded

NATIONAL EMBLEM (H. T.)—Dark crimson, of perfect shape, habit and inflorescence; as a bedding, massing and cutting Rose it is unique. Buds long and pointed, opening to large, full, handsome flowers of great beauty, flowering freely and continuously.

OPHELIA—Salmon-flesh shaded with rose, large, and of perfect shape; of excellent habit; the flowers standing up well on long, stiff stems and produced in great profusion. Excellent for forcing and a fine decorative variety. Growth vigorous. Certainly a glorious Rose. Be sure to have "Ophelia" fixed in your memory.

PILGRIM—(New.) In color, a beautiful shade of bright rose-pink. The bud, which opens perfectly, is long and of ideal form. Pilgrim is a Rose of good substance and petalage, and at any stage of development is perfect in color and form of flower. Its pronounced tea fragrance will attract all Rose lovers. It is prolific and highly productive of first quality blooms. The stems are straight and strong. It is the pink Rose to grow. 40 cents. No two-year to offer.

PREMIER—This is the long-looked for deep Rose for the garden; a beauty, and one you will be pleased with. It is a very free bloomer, almost smothering the plant. The color is bright and attractive. The growth is all that is to be de-

sired, and altogether a wonderful Rose. 40 cents. No two-year to offer.

RED RADIANCE (H. T.)—All who know that grand Rose Radiance will welcome this red form of that great favorite. Radiance is a Rose that does well everywhere; a fine grower and free bloomer, and no prettier pink Rose grown. Red Radiance is its exact counterpart except that the color is a rich deep red.

RICHMOND—Pure rich scarlet; very free and continuous flowering; splendid forcer.

ROSE MARIE (H. T.)—This is a grand Rose of the very highest merit. A rich red that has come to stay. Might best be described as a bright water-melon-red. Very desirable.

TIPPERARY (H. T.)—In color stands between Lady Hillingdon and Melody, showing an attractive shade of soft golden-yellow in the bud and half developed flower. Its freedom of flowering and its habit of growth will make it one of the most desirable Roses of its color.

W. C. GAUNT (H. T.)—Of medium size, with pointed buds, with naturally reflexed guard petals of brilliant velvet vermilion, tipped scarlet. Stems rigid, habit branching, large oval beech-green foliage. Rich tea fragrance; very rich in color.

The "Excelsior" List of Ever-Blooming Roses

New and Choice for Outdoor Planting or House Culture

Price, 20 cents each; any three of your own selection for 50 cents. Two-year plants, 40 cents each; three for \$1.00.

For general planting, more especially in open ground, this class excels all others. One-year-old plants, such as we send by mail, bloom the first and each succeeding year from early spring until severe frosts. Two-year-old plants, of course, yield a greater profusion of flowers, owing to their size. The flowers are noted for their exquisite coloring and delightful fragrance; hardy everywhere in open ground with protection of litter, leaves, evergreen boughs or similar materials. Plant liberally of one-year-old Roses; the harvest of bloom they give the first year compensates for the trifling outlay. Anyone can succeed with them.

Polyantha, or Baby Roses

A class of miniature Roses derived from the Climbing Polyantha. They are of dwarf habit and bloom so freely as to cover the entire plant with bloom all through summer and fall. The plants are splendid for bedding, or as edgings for borders they are hardy. Let us tell you something about these miniature Roses. While Europe has appreciated these Roses for years, America is just beginning to wake up to the fact that they have come to stay. They are useful either pot grown or for bedding purposes or for hedge effect. **20 cents each; six for \$1.00; two-year plants, 50 cents each; three for \$1.25.**

MADemoiselle CECILE BRUNNER—This is the popular Baby Pink Rose. It is also known as Sweetheart and Mignon. In the past year or two this Rose has fairly jumped into popularity. It

always was a popular outdoor Rose on the Pacific Coast, but recently even in the effete East and everywhere in America they are planting it simply by thousands for cut flowers. It has become quite the rage. It makes a handsome miniature Rose, coming in sprays of three to five buds and combined in beautiful effect with so many other flowers in all kinds of floral work. It is a very prolific bloomer and if carefully protected in the winter should be a money-maker, both outdoors and under glass. The bud and flower are both handsome. Color, blush, shaded light salmon-pink; distinct and desirable.

MRS. WM. H. CUTBUSH—Flowers the delicate pink of Dorothy Perkins.

PERLE d'OR—Coppery-orange, changing to fawn.

Baby Dorothy.

New Polyantha, or Baby Roses

Price 25 Cents Each; Two-Year Plants, 60 Cents.

BABY DOROTHY—This is a glorious Rose. Flowers resemble the Dorothy Perkins. Completely hides the plant with its bloom.

BABY ECHO—The best Polyantha produced. Color rosy-flesh color. Of splendid strong growth and freedom of bloom, which are of wonderful keeping. Qualities either on or off the plant. This is the improved Baby Tausendschoen. It has more substance and more color, and is the best of all Baby Roses for pot culture. Be sure and try this one.

BABY TAUSENDSCHOEN, or THOUSAND BEAUTIES—Its flowers are large, so much like Thousand Beauties, that it has been rechristened Baby Thousand Beauties. It is a bush form of the Thousand Beauties, having all the charm of the variable coloring in its flowers that its parent has, being firm, white, delicately flushed pink, changing to deep rosy-carmine. A splendid Rose. Try it.

EDITH CAVELL—Bright crimson; white eye; very beautiful. One of the best new Baby Roses.

ETOILE LUISANTE or BABY HERRIOT—Just picture to yourself the Fairy or Sweetheart Rose ("Cecile Brunner"), colored up like the Daily Mail Rose ("Mme. Edouard Herriot"), only brighter and more brilliant than when that variety is at its best, and you will have some conception of the beauty of this little gem which on account of the similarity in color has been known among the cut flower trade as Baby Herriot. Its color is a

shrimp-pink with intense, coppery-scarlet suffusion, the base of the petals golden-yellow which intensifies and lightens up its high colors. Plant is of free growth and floriferous. We are certain that Baby Herriot will please everyone.

GEORGE ELGER—A lovely little golden-yellow Polyantha Rose, with a good admixture of Tea blood; like all of its class, it is free in growth free in bloom, with small, glossy foliage produced in profusion. The dainty little pointed yellow buds open into pretty little symmetrical Roses. Will prove a very popular corsage variety; is grown in quantity now for this purpose.

GRUSS AN AACHEN—Yellowish-rose colored with salmon-pink and red shadings; full, strong, free blooming and disease proof; erect and of moderate growth. Owing to the size and beauty of its flowers and its symmetrical growth, this variety is highly recommended for low, bright massing.

New Polyantha, or Baby Roses—Concluded

Price, 25 Cents Each; Two-Year Old Plants, 60 Cents Each

ORLEANS—The showiest and prettiest of all the Baby Ramblers. This charming and dainty Rose is of beautiful rounded habit and is a huge bouquet of deep cerise or Geranium-pink, with distinct showy center of pure white; florets not crowded, but of beautiful arrangement, making as a whole a charming combination that cannot be beaten. Color is irresistible. Plant grows like a weed and the flowers are nearly "immor-

telle" in their lasting qualities. Awarded gold medal.

TIP TOP, "Baby Doll"—This delightful little "Sweet-heart" Rose is a wonder. The color is absolutely new, and quite startling in its brilliancy, golden-yellow tipped with clear, bright cerise. The foliage is narrow, long and sharply pointed, a deep glossy green—a very beautiful setting for the lovely little doll roses, a bench of "Baby Doll" being an even parterre of delicious color.

"Famous" Rose Collection for Garden Planting

We guarantee that no better Twelve Roses for the Garden were ever offered than this "Famous Collection. Try them. Price, 25 cents each; the entire twelve for \$2.50. Two-year-old plants, 50 cents each; the entire twelve for \$5.00.

ANTOINE RIVOIRE—This is the famous Mrs. Taft Rose of the fashionable Eastern markets. This Rose is in a class by itself; no Rose ever produced has such substance of petal; color creamy-white with rainbow tints; a beauty and a wonder.

BESSIE BROWN—A Rose of transcendent beauty; of the largest size; color pearly-white with a delicate tinge of fawn.

ETOILE DE FRANCE—For the best red garden Rose it lies between this one, Rhea Reid and Helen Gould. Some say one and some say the other.

ETOILE DE LYON—Still the best large golden-yellow Rose.

HELEN GOULD—A rich red Rose that is a great bloomer; the shade of red has been described best as a watermelon-red; elegant.

HELEN GOOD (The Beauty Cochet)—What the introducers say: "This is a true Cochet Rose, and after two years' trial in the garden we pronounce it as good if not better than any Rose for the garden ever sent out. We bought the entire stock of this Rose, paying \$1,000 for two plants, this being by far the highest recorded price ever paid for any Rose. The color is a delicate yellow suffused with pink, each petal edged deeper, very chaste and beautiful. The color, with its immense size and exquisite form, makes it without question the greatest Tea Rose ever introduced, and we are proud to have brought it out."

KAISERIN AUGUSTA VICTORIA—A grand white garden Rose that has stood the test of time. Full and double; fine buds and flowers.

MAMAN COCHET (The Queen of all Garden Roses)—Such beauty and exquisite form as is possessed by this variety is well-nigh marvelous, and cannot be seen in any other Rose we know of. The buds are beautiful large, full and firm and elegantly pointed; as they expand they show great depth and richness sometimes measuring two and a half inches from base to tip. Flowers superb when open, extra large, perfectly double and of

splendid substance. Small pot plants will in the open ground quickly make large, strong bushes and produce, on long, stiff stems, great numbers of perfect flowers that are enchanting in fragrance and delicate brightness. The color is rich, clear pink, changing to a silvery-rose. As we see it, one good Rose like any of the Cochet Roses is worth a whole collection of poor ones.

PRESIDENT TAFT (McCullough, 1908.)—This Rose was raised in Cincinnati, the home of President Taft, and let us say right here, while some of you may not admire the President himself, you will, one and all, admire the Rose given his name. It is without question the most remarkable of all pink roses. It has a shining, intense, deep pink color possessed by no other Rose. It is a fine grower, free bloomer, good size and form, fragrant and in a class by itself as to color. Our Mr. Frank Good, who is probably familiar with more Roses than any man in America, says: "Talk all you want to about the Rose President Taft, and then you will not say enough."

RADIANCE (Cook, 1909.)—A brilliant rosy-carmine, displaying beautiful rich and opaline-pink tints in the open flower. The form is fine, largest size and full, with cupped petals. It blooms constantly and is delightfully fragrant. This is a superior Rose.

WHITE MAMAN COCHET (No Finer Rose Than This)—This Rose attracted our attention from the very first time we ever saw it in flower. It is of the largest size, and as you will notice, the flower is built up, or rounded and very double. The color is a pure snow-white. Sometimes outdoors it is tinged Pink, which only adds to its great beauty. No Rose surpasses it in vigorous growth and in the immense size of its buds and flowers—indeed, nothing in the Tea family approaches it in size. Deliciously fragrant.

WM. R. SMITH—This Rose has several names, such as Charles Dingee, Jeanette Heller, Maiden's Blush, etc. Color delicate blush. It has no superior as a garden Rose.

RED DOROTHY PERKINS, or EXCELSA—The defects of Crimson Rambler are its unsightly foliage in unseasonable weather and its defoliation by insects; the infusion of Wichuraiana blood assures an ornamental climber which is nearly evergreen, and this will assure this lovely crimson-scarlet pillar Rose a place in every American garden, for it is quite hardy in addition to all its other fine points. The flowers are very double, produced in large trusses of thirty to forty, and almost every eye on a shoot produces large clusters of flowers. BEAUTIFUL CANNAS

Cannas are called the poor man's Orchid because one may possess a perfect riot of color in his yard or garden for the minimum of both outlay and labor. They grow rapidly and bloom luxuriantly throughout a long season, requiring merely ordinary hoeing and weeding, and they always respond to plenty of water. Soak the ground thoroughly. Planted in beds of any formal shape, in rows or in front of porches and foundation walls, their rich, tropical foliage and bright bloom will repay their care and the insignificant trouble of winter storage.

35 cents each; \$3.50 per dozen; \$30.00 per hundred.

KING HUMBERT—In this grand Italian Canna we have a combination of the highest type of flower with the finest bronze foliage. Its flowers, which under ordinary cultivation will measure six inches in diameter, and which are produced in heavy trusses of gigantic size, are of a brilliant orange-scarlet, with bright red markings, while the foliage is broad and massive and of a rich coppery bronze with brownish green markings. Five feet.

THE PRESIDENT—Four feet. This Canna is superior to any other red variety in the quality and also the quantity of bloom. Color rich glowing scarlet and the immense firm flowers are produced on strong erect stalks well above the large, rich green foliage. The foliage is entirely free from disease.

Plant Cannas by the dozen and the hundred, there is nothing more attractive for bedding purposes.

This is the way a bed of King Humbert or The President looks.

CARNATIONS THE DIVINE FLOWER PINKS

For beauty of flower and color, ease of culture, certainty and freedom of bloom, together with exquisite fragrance, this is well called the "Divine Flower." Plants in the open ground or in pots quickly make large specimens, and when brought indoors in the fall produce an abundance of flowers throughout the entire winter. Carnation blooms are expensive; don't buy them—grow them yourself. Pinch the plant back frequently during the summer season. In the fall bring indoors, place in a four or five-inch pot, keep in a temperature of forty or fifty degrees at night, and they will yield an immense number of flowers with splendid stems, as fine as those sold by florists. If not pinched in they will bloom profusely during the summer. We offer the finest varieties in existence. Your order is incomplete without some Carnations.

Frost does not materially affect the flowering, and it will frequently happen that an armful of flowers can be cut after a sharp frost.

BEAUTIFUL HOUSE FERNS

There are no plants grown that are more desirable for the house than the following fine decorative Ferns. They are easily grown, free from insects and disease, and thrive well in the ordinary temperature of the living room. See that the plants have plenty of drainage and are kept well watered; never let dry out for any length of time. Everyone of these Nephrolepis Ferns is entirely distinct in every way. That we are headquarters for Ferns is evidenced by the choice assortment that we offer. No other firm offers so many distinct and choice varieties. Try us for Ferns.

The "Teddy Junior Fern"

Nephrolepis Teddy Junior

"Teddy Junior," the Fern for every household. This grand Fern was introduced recently by G. & R. The fronds are broad and beautifully tapered from base to tip; they droop just enough to make a shapely, graceful plant, permitting it to finish with a fine full center and perfect symmetrical spread. The pinnae are distinctly undulated, giving the fronds an attractive wavy appearance, which adds materially to their charming decorative effect. "Teddy Junior" will produce about four times more fronds than any other Fern ever introduced, finishing with fifty to sixty fronds in a four-inch pot. Fine young plants, 25 cents; strong plants, 75 cents.

The "Roosevelt Fern"

Nephrolepis Roosevelt

It is our good fortune and great pleasure to offer this wonderful new Fern, having introduced it in 1910. In this short time it stands second in popularity of all the Ferns, and will soon be more popular than even the old favorite Boston Fern. In general characteristics it resembles the world-famous Boston Fern, but it will sweep that Fern from the boards for two reasons; it produces many more fronds than the Boston; thus making a bushier, handsomer plant; then the pinnae are beautifully undulated, giving the "Roosevelt" a pronounced wavy effect seen in no other Fern; as the plant ages this effect becomes quite distinct. A charming and most notable variety. Fine young plants, 25 cents each; strong plants, 75 cents.

New Fern Liberty

This is our own production. In the past we have sent out Baby's Breath, Teddy Junior and Roosevelt, the three greatest Ferns today, acknowledged so by all plantmen and flower lovers, and now we add another one to the galaxy, "Liberty," no doubt the best of them. All the fronds have finely divided pinnae that give them a very beautiful appearance, while the whole plant is overlaid with a bluish cast that makes of it a very striking object. Wonderfully beautiful, different from all other Ferns. First time offered. Fine young plants, 35 cents each; strong plants, \$1.00 each. Be sure and try this beautiful Fern.

The "Newport Fern"

Nephrolepis Scotti

Of much dwarfer and bushier growth than the Boston Fern. The fronds droop gracefully, and are not as long and heavy as the Boston. It is a rapid grower, and to see it in all stages of growth from a runner in the bench to a 14-inch pot specimen will convince you that it will be in great demand as a house Fern. This has always been a favorite variety. Fine young plants, 30c; strong plants, 75c.

The "Parlor Fern"

Nephrolepis Whitmanii Compacta

This is a condensed form of the "Ostrich Plume" Fern, with valuable characteristics added which are not evident in the parent, the pinnae subdividing, making miniature fronds which are superimposed on the main fronds, looking as if two or more were condensed into one. Graceful beyond description. Fine young plants, 35 cents; strong plants, 75 cents.

The "Philadelphia Lace Fern"

Nephrolepis Elegantissima

The small size pinnae, or leaflets, are subdivided into perfect miniature fronds the side pinnae stand at right angles to the midrib of the fronds, on edge instead of flat, giving both sides of the main frond the same beautiful appearance. It is impossible to conceive of the beauty and grace of this wonderful Fern from the description. Fine young plants, 35 cents; strong plants, 75 cents.

The "Big Four" Fern

Nephrolepis Splendida

This is the most wonderful Fern of them all; it originated with G. & R., and is now offered for the first time. It combines the good qualities of the four most popular sorts. It has the grace of a "Boston," the wavy effect of a "Roosevelt," the fluffy effect of an "Ostrich Plume," and the uniqueness of a "Fish Tail." Some fronds will be straight "Boston," others will be true "Roosevelt," in others the ends of the pinnae will be the feathery "Ostrich Plume," while in others the ends of the pinnae will be the genuine "Fish Tail." Then again some fronds will have in a marked degree all of these desirable traits, forming a combination without parallel among Ferns. It well deserves the name of "Big Four Fern." Everyone who sees it goes "daffy" about it. This is without question the most splendid of all the Nephrolepis. Be sure and try it. Fine young plants, 25 cents each; strong plants, 75 cents.

Beautiful House Ferns—Concluded

The "Boston Fern"

*Nephrolepis
Bostoniensis.*

In the vicinity of Boston, no other plant is so extensively used as this graceful *Nephrolepis*, which differs from the ordinary Sword Fern in having much longer fronds, which frequently attain a length of six feet. These arch and droop over very gracefully, on account of which it is frequently called the Fountain Fern. This drooping habit makes it an excellent plant to grow as a single specimen on a table or pedestal. This Fern should not be compared with the Ostrich Plume Fern, as they are of an entirely different growth. **Fine young plants, 25 cents; strong plants, 75 cents.**

The "Wannamaker Fern"

Nephrolepis John Wannamaker

A new Fern of wonderful beauty. Long, narrow, gracefully drooping fronds. It is not so compact as Scholzei, and, therefore, is a very airy and graceful Fern, and very durable in the house. A rapid grower; quite distinct from other Ferns. **Fine young plants, 30 cents; strong plants, 75 cents.**

The "Ostrich Plume Fern"

Nephrolepis Whitmanii

A great Fern. In fact, it is a plant that appeals to everyone, and on that account will prove a much more valuable and profitable plant than other Ferns of this class. Everyone who has seen it is charmed with it. As someone has expressed it, "There is nothing like the Ostrich Plume Fern in cultivation. In decorative effect it so far outdistances the original variety that there is positively no comparison to be made. We consider it the most valuable novelty that has been introduced in many, many years." It has taken gold medals wherever shown. **Fine young plants, 35 cents; strong plants, 85 cents.**

Fern Smithii

A new type of the Ostrich Plume family. The frond is very compact and the pinnae are finely serrated, giving it the appearance of a strong feathery plume. **Fine young plants, 50 cents each. No large size to offer.**

The "Old Original Sword Fern"

Nephrolepis Exaltata

This is the "old original Sword Fern," the "daddy" of them all, the one plant from which all the *Nephrolepis* we offer sprang. It is entirely different from any of its progeny, having narrow fronds that are long and of very erect growth. For this reason it is more largely used as a centerpiece in vases

than are any of its descendants. **Fine young plants, 25 cents; strong plants, 75 cents.**

The "Crested Fern"

Nephrolepis Scholzei

The fronds are crested and stand erect, with a graceful arch, forming a plant of ideal shape, and they never break down, giving the plant a ragged appearance, as is so often the case with other plumed forms; furthermore, the loose, elegant arrangement of the fronds, allowing a free circulation of air through the foliage, prevents the center of even the largest specimen from becoming defective or yellow. **Fine young plants, 25 cents each; large plants, 50 cents.**

The "Baby's Breath Fern"

Nephrolepis Goodii

This has the finest foliage of all the Ferns. It is so delicate that a lady on seeing it exclaimed, "Call it the Baby's Breath Fern, as it is so dainty in texture that a baby's breath would set its fluffy foliage in motion." The fronds are very fine and filmy, on which account it has been called by some the Lace Fern. It is an improved variety, and the best of its type. Nothing is daintier or more exquisite than well grown specimens in any size. **Fine young plants, 50 cents; strong plants, \$1.00.**

The "Fluffy Ruffles Fern"

Nephrolepis Superbissima

This new Fern is quite different from all other Ferns. Its distinguishing characteristics are its dark green foliage, darker than any other Fern, its dense growth, much more compact, and its irregular shaped fronds, which give it the name of "Fluffy Ruffles Fern." The fronds are very heavily imbricated, the pinnae overlapping, and so formed as to resemble miniature Ferns, giving it the appearance of a Fern within a Fern. The plant is very sturdy in its habit. **Fine young plants, 75 cents. No large size to offer.**

SPECIAL OFFER—The Fifteen Beautiful Ferns as named, costing \$5.25, for only \$4.25. The Thirteen Ferns in strong plants, costing \$10.10, for only \$9.50.

Pansy Geranium, Mrs. LAYAL

A Wonderful Plant.

This new and wonderful Pansy Geranium is of the easiest growth, dwarf in habit, and literally covered with flowers all the time; and as it requires little or no attention, it is invaluable as a window plant. The coloring and markings of the flowers are most extraordinary—light pink, white, dark purple, black, etc., almost rivaling the Pansy in uniqueness of flower. It is this combination of coloring which obtained for it the popular name of Pansy Geranium. **Strong plants, ready to bloom, 30 cents each, two for 50 cents.**

Pansy Geranium.

Pelargonium, or Lady Washington Geraniums

The grandest of all flowering plants; do not resemble the common Geraniums in any particular, neither in foliage nor flower; more beautiful in every way. We here offer six distinct sorts, every one entirely different in color and every one a beauty. The Lady Washington Geraniums are the handsomest of all flowers—once seen, never forgotten.

The Easter Greeting, or Ever-Blooming Set

PRICE, 40 CENTS EACH

EASTER GREETING—Planted out as a bedding plant it will bloom continually until late in the fall. It will prove the forerunner of a new race of ever-blooming kinds, as it rivals the Orchids in beauty. This new species is the earliest of all Pelargoniums, with enormous florets and clusters, having light green foliage and of dwarf, robust growth. It blooms from March until fall. Florets fiery amaranth-red, with five large, regular shaped spots. The first and only kind to bloom as well bedded out as in pots, and to do so all summer.

GARDENER'S JOY—The ground color is apple-blossom pink, the two upper petals have blotches of carbon-brown, the florets are three and one-half inches in diameter and are joined to enormous clusters which rise above the beautiful foliage and remind one of a Rhododendron cluster. It is of a half dwarf nature and very sturdy. On account of its rapid, luxuriant growth it is a very profitable market variety.

Pelargonium, or Lady Washington Geraniums—Concluded

GLORY—This splendid novelty is quite remountant, florets and cluster very large; ground color, Cattleya-blue, very much like the Cattleya Orchid. The upper petals contain two large purple magenta-red spots, distinctly veined. An exceedingly beautiful and entirely new color in Pelargoniums. This kind has a very robust growth.

LIBERTY—A glorious flower of salmon-red, with large velvety, sharply defined blotches bordered with scarlet. Has all the good qualities of Easter Greeting, its parent, having gigantic trusses. Equally valuable as a pot plant or for bedding out.

LUCY BECKER—This grand novelty is a sport of Easter Greeting, and is like it in everything but color which is a rosy-pink. It is if anything even more free in bloom.

PRINCE—Immensely large flowers, strongly crimped of fine shade, with from six to ten petals; color rich purple with velvety black blotches. Remarkably robust habit. The large clusters rise gracefully above the beautiful foliage. The blooming plant with its enormous flowers makes a striking impression.

THE NEWEST FRENCH HYDRANGEAS

These are very fine and claimed to be an improvement over the older sorts.

All the following Hydrangeas, young plants, 75c each.

BABY BIMBINET—Very dwarf, free and early; large, compact trusses of silver-rose flowers very attractive.

ETINCETANTI—A clear carmine. A clean, vigorous grower of unusual merit.

SATINET—This variety is so radiant that it resembles a dainty piece of stain, probably the best

of all the French Hydrangeas. Color a beautiful rose.

TROPHEE—The reddest red. A vigorous grower, free bloomer, of a deeper shade than Lillie Mouillere. Has been accorded the most unreserved praise of any variety grown by us. A real red and an excellent actor.

Hydrangeas.

NEW FRENCH HYDRANGEAS

Let us tell our friends that these new French Hydrangeas are the most meritorious plants brought out in years. They have enormous trusses of bloom that completely hide the plant. They are half hardy and may be planted in the latitude of Philadelphia and in the Gulf and Pacific states. They are also fine as house plants, blooming in the spring time about Easter. When kept at a temperature of 70 degrees out of doors they bloom about June. All the following New Hydrangeas, young plants, 30c; strong plants, 50c.

AVALANCHE—A splendid large white, which has made a reputation for itself during the past two seasons. An easy variety to force.

BOUQUET ROSE—Large trusses of well-formed flowers, rosy-amber turning to bright pink; has proven a special favorite in the New York market this season.

E. G. HILL—This is the newest one and the very best, and is by far the best pink that we have yet tried; trusses of immense size. Color a most

pleasing shade of baby pink that does not fade. Growth vigorous, foliage large and attractive. It is one of the easiest to force into bloom during the spring, coming into flower early.

SPLENDID Hardy Everywhere PEONIES

"ARISTOCRAT OF FLOWERS"

THE wonderful improvements made during recent years in these old-fashioned hardy plants has brought them into renewed popularity. The gorgeous flowers, which rival the finest Roses in size, form and color, are produced in great abundance. After once being planted they require little care and attention, thrive anywhere, and are absolutely hardy even in the coldest climates; each year after planting they grow into greater value, producing more and more flowers. They are not troubled with insect pests. Try some of our fine Peonies, and see what grand flowers they are. Get it out of your head that there are only Red, White and Pink Peonies to illustrate at flowering time. People who visit our field will say, "I have Pink and White Peonies. I desire only Red ones," but when they are shown the Pink and White, they invariably exclaim, "How grand! I have none like them." There is as much difference in Peonies as there is in Roses.

THE WONDERFUL Japanese Kudzu Vine

(Jack and the Bean Stalk Vine)

This is the most rapid-growing vine that anyone knows of. By measurement it has been known to grow twenty feet in a week. The foliage is large and tropical. It is entirely hardy. Everyone has trouble in getting nursery-grown plants of this to grow. We have prepared and offer pot grown plants, the kind that have the crown to the plant and ball of earth to the roots, and you try to stop them growing and see if you don't run into a snag. This is proving a great forage plant in the south. All kinds of stock prefer it to hay or other common feed. Try it. 35 cents each; three for 85 cents.

Cinnamon Vine

Bears white flowers with fine cinnamon fragrance. 10 cents each; three for 25 cents.

Chinese Wisteria

Desirable for porches, trellises, etc., and when in full bloom is truly magnificent. It flowers in early spring, in long, drooping racemes, resembling in size and shape a bunch of grapes. 25 cents; large plants, 50 cents.

Ampelopsis Veitchii

(The Boston Ivy)

Clings firmly to any wall, building or tree. Green leaves in summer, changing to red in the fall. 25 cents each; two-year plants, 50 cents.

Calla Lilies

Everybody Needs a Calla for Winter Blooming. Here are the Best.

CALLA ETHIOPICA—The old-fashioned sorts in three sizes. Small bulbs that will bloom, 25c each; large bulbs, 40c each; extra large bulbs, 75c each. **THE GODFREY CALLA LILY, "Devoniensis"**—Undoubtedly the finest thing ever sent out in the Calla line, and quite indispensable. Blooms all winter. Compared with the ordinary Calla, it gives three blooms to one; it is snow-white and perfect in form. Blooms on very small plants, though it attains to a very large size with very large flowers. The new Godfrey Calla Devonien-sis is a wonder. Blooming bulbs, 35 cents each. **GOLDEN YELLOW CALLA (*Richardia Elliottiana*)**—Entirely distinct and unlike all other forms of yellow Calla; it has the same habit of growth as the ordinary white variety, with flowers of same size and shape, but of a rich, clear, lustrous golden-yellow color; the foliage is dark green with a number of translucent creamy-white spots, which add much to its beauty. It is but a few years ago that this sold at a very high price. We are now able to offer strong, blooming bulbs at 90 cents each; two for \$1.50.

SPECIAL OFFER The three Callas, costing \$1.50, for only \$1.15.

Spider Lily

This is one of the prettiest and daintiest of all Lilies. It is pure white with bands of a greenish color through the flower; this green and the white make a charming combination that everyone admires. The filaments and stamens of this choice Lily resemble a huge spider; not repulsive, but the most beautiful and delicate of all lilies. Each, 40c; three for \$1.00.

Lily of the Valley

The modest bell-shaped flowers, of the purest white, are highly prized for cutting purposes, and for flowering in pots in winter they are exceedingly well adapted. Beautiful and most interesting ornamental designs for the parlor or conservatory may be produced by planting Lily crowns in Crocus pots or in pyramidal pots made especially for this purpose and pierced with holes. They will last several weeks in beauty. By taking them in at intervals a succession of different designs may be kept up all winter. They are also forced in immense quantities by florists, but they are the most charming when grown in large patches in partially shaded localities around the lawn, near the borders of streams, lakes, etc., being perfectly hardy. Price, 4 cents each; 40 cents per dozen; 25 for 75c.

Hardy English Ivy

Evergreen, with dark, glossy green leaves. 35 cents each.

Clematis Paniculata

Covered in August and September with a sheet of clustered snow-white bloom of the most delicious fragrance. An arbor or portico over which this Clematis is trained is a wall of white for the time being; and it blooms when nearly all other vines have ceased blooming. Perfectly hardy; grows rapidly. HARDY DECIDUOUS SHRUBS

Whether planted individually or collectively Shrubs are an important feature in the adornment of any yard. The rich green of the summer foliage plays a greater part in landscape effect than is often realized. Would advise planting liberally of Shrubs.

The Ever-Blooming Butterfly Bush

Buddleia Variabilis Magnifica (Butterfly Bush).

It was a matter of some thought before this highly desirable plant was finally christened with the common English name by which it goes. Several years ago there were imported from Europe some plant novelties and this one was among them. We observed it carefully for a season and were charmed with its beauty, ease of culture and free flowering habit. The name Butterfly Bush was applied to it because it seems to attract butterflies in large numbers. Particularly we notice that it is not alone the common little yellow species of butterfly, but also the large and gorgeously colored butterflies that swarm about it as though vying with it in brilliancy of color. This shrub from a young plant set out either in the spring or fall, will mature to full size the first summer, producing a handsome bush, which the first year often maintains a height of four feet. It produces long, grace-

ful stems, which terminate in tapering panicles of beautiful lilac-colored flowers that are of miniature size and borne by the hundreds on a flower head which is frequently ten inches long. A single plant the first season will throw out as many as fifty flower spikes, which increase greatly in number during succeeding years. The year after planting, it generally commences to flower in June and continues each season until severe frosts nip it. The foliage and blooms are exceedingly fine. The shrub is rather semi-herbaceous, by which we mean in some latitudes it will lie down to the ground and while perfectly hardy, we recommend covering the roots with manure, leaves or other suitable materials as winter approaches, as this will produce a heavy growth the following season. This shrub is very desirable as an individual specimen in the lawn and garden, or placed promiscuously in the shrubbery border. Fine plants, 25 cents. Strong plants, 50 cents each.

HARDY DECIDUOUS SHRUBS—Continued

Buxus

(Ornamental Box.)

(*Sempervirens*)—Useful for edging and bordering walks, etc. A handsome shrub with deep green foliage. This is not as dwarf as the *Sempervirens* Nana, but we find it so much more vigorous and hardy that we advise planting this and trimming to height required. 20 cents each; \$1.50 per dozen, postpaid.

Calycanthus Floridus

(Carolina Allspice or Sweet Scented Shrub.)

A most desirable shrub. The wood is fragrant; flowers of a rare chocolate color, having a peculiar agreeable odor that is very penetrating. They blossom in June and at intervals afterwards. Fine plants, 25 cents; strong two-year-old plants, 50 cts.

Deutzias

Their fine habit, luxuriant foliage and profusion of bloom render them among the most beautiful of shrubs. They flower the latter part of June.

DEUTZIA CRENATA (Fl. Pl.)—Flowers double white, tinged with rose. 25 cents; two-year plants, 50 cents.

DEUTZIA GRACILIS—Dwarf habit. Covers itself with pure white bell-shaped flowers. 25 cents each; strong plants, 50 cents.

DEUTZIA GRACILIS ROSEA—Same as above, but pink flowers. 25 cents each; strong plants, 50 cts.

DEUTZIA LEMOINEI—Habit dwarf and free flowering; double white flowers. 25 cents; two-year plants, 50 cents.

DEUTZIA PRIDE OF ROCHESTER—Large double white flowers. 25 cents; two-year plants, 50 cts.

FORSYTHIA (Golden Bells.) (Viridissima.) This splendid shrub lights up your garden with glinting masses of yellow, very early in the spring before the leaves appear. The bark of the young twigs is bright green. 35 cents each.

FORSYTHIA (Fortunei.) Erect branches and handsome, broad, dark, green leaves. Fine for individual specimens. 35 cents each.

GOLDEN ELDER ("Sambucus Nigra.") (Variegata Aurea.) Probably the most showy golden-leaved shrub. One of the finest shrubs for ornamental purposes. Foliage bright yellow with a profusion of berries. Gives a tone of contrast to any shrubbery planting. Two sizes, 35 cents and 75 cents each.

The King of All Shrubs

THE NEW HYDRANGEA ARBORESCENS
GRANDIFLORA ALBA

Hills of Snow

The Most Valuable Hardy Shrub Ever Introduced.
Plant in the Fall.

This is the great new hardy shrub that has come to gladden our yards and gardens. We place it first and foremost of all shrubs. It makes a perfectly round, symmetrical bush that is covered from June to August with handsome, large, pure white flowers. Be sure and plant this new hardy shrub—it will please you greatly. Young plants, 25 cents; strong two-year plants, 50 cents.

Hydrangea Paniculata Grandiflora

A great favorite, and there is nothing finer or more showy, whether for planting in large masses in parks or for single plants on the smallest lawns. Blooms profusely from July until frost, in immense white panicles, tinted with pink and then with brown in the fully matured flower. The plant should be cut back each spring fully one-half of the past season's growth, as the flowers are much finer if the plant is treated in this manner. The flowers are much finer and larger if grown in a good, rich soil, but the plant is so hardy and so easily grown that success is almost certain in any kind of soil and in any situation. Young plants, 30 cents. Strong flowering plants, for immediate effect, two years old, 60 cents.

Hibiscus Syriacus

(Althea or Rose of Sharon)

Also known as the Hollyhock shrub, belongs to the Mallow family. These are the most beautiful shrubs we have in our collection. We offer nine of the very choicest varieties as follows:

RUBUS—Single red; a striking variety.

VIOLET CLARE—Double violet; very popular.

CORONARIUS (Garland Syringa)—Pure white flowers, highly scented. 20 cents; two-year plants, 35 cents.

GRANDIFLORUS (Large-Flowered Syringa)—Has very showy large white flowers, delicate fragrance. 20 cents.

MONT BLANC—The branches of this beautiful variety are covered with white flowers that are deliciously fragrant. A grand species. 25 cents.

NEW PHILADELPHUS ("Virginal")—One of the most beautiful new ever-blooming varieties. A vigorous, tall grower with very large, double-crested flowers, with round petals. Pure white; sweetly scented; clusters of five to seven. Good strong plants, 75 cents each; three for \$2.00.

Syringa or Lilac

Well known beautiful shrubs, indispensable in every collection. It is doubtful if anything in the whole range of flowering shrubs surpasses these in grace and elegance, or in hardiness and usefulness. As decorative plants on the lawn or in the border they are without a peer. All of the Lilacs are deliciously fragrant. One-year plants of Lilacs, 12 to 18 inches high, 50c each; two-year plants, branched, 18 to 24 inches, 75c each; any nine Lilacs, in one-year-old plants, for \$3.75; in two-year-old plants, any nine for \$6.00.
